:: Welcome to Navy eLearning

Please read "FOR DON SERVICE MEMBERS" section in the Mandatory Training section below for recent changes to required General Military Training lessons resulting from issuance of NAVADMIN 098/10 .

If you are using an NMCI PC and upon launching the DoD Information Assurance Awareness V9 (DOD-IAA-V9.0) course are receiving a black screen, or the initial screen loads but you cannot continue, please try the following to resolve the issue. After making the changes Internet Explorer MUST be completely restarted. Make sure all windows are closed or the change will not take effect.

From the top left hand side of your Internet Explorer Browser, click on "Tools", then "Internet Options". Click on the "Advanced" Tab and ensure the following three items are checked:

Under the "Browsing" section:
1) "Enable In
2) "Enable In
3) "Force off

- SkillSoft, N
- Enrollments for all retired content (i.e., SkillSoft, NETg, Harvard, etc.) have been removed from user accounts.

All of the SkillSoft and NETg courses have been retired and discontinued on Navy eLearning as per NAVADMIN 154/09. The Harvard Business courses were retired as per the NeL Content Retirement Announcement CRA-2009-02. It is unclear at this time if any of these courses will be returning to Navy eLearning any time soon. If there are any other updates, this information will be posted in this space.

The current Point of Contact is the Naval Education Training Command (NETC) N721 Program Analyst (ILE, NKO, NTMPS, LAS, and simulation), at (757) 322-9717.

If you have not recently taken courses on Navy eLearning from the PC you are currently using:
Please visit the "Browser Configuration" link and follow the appropriate configuration instructions. **NOTE: Failure to use a properly configured Windows Operating System with Internet Explorer Browser may result in courses not launching or not launching properly. It may also cause course progress not to save. If progress does not save, courses cannot be manually updated without actual screen captures from within the course showing proof of content completion and passing scores for all scoreable items.**

If currently Enrolled in courses:
Click the "**My Enrollments**" tab to view the list of courses you are currently enrolled in. **NOTE: The use of a Windows Operating System and Internet Explorer Browser is Highly Recommended. Some learners are able to access the site using other Operating Systems, such as MAC, but many cannot. Those individuals that can get to the site can get SOME courses to launch, but not others. Sometimes progress will save and other times it will not. In addition, the use of an Internet Browser other that Internet Explorer, such as Mozilla-based Firefox, may cause courses not to launch or progress not to save. The NETC Enterprise Customer Support Center is equipped with a Windows-based Operating Systems and Internet Explorer Browser. Home users experiencing technical problems with any other operating system or browser use this site at their own discretion. However, the NETC Enterprise Customer Support Center will be unable to assist with configuring these systems or browsers.**

Not Enrolled:
If you are not enrolled in a course use the "**Browse Categories**" feature in the left Content menu to see what is available. If you know the course Catalog Title or Catalog Code, you may wish to do an Advanced Search.

If you are experiencing issues with self-paced courseware or any other Navy eLearning materials and choose to contact the NETC Enterprise Customer Support Center (ECSC), please notice that the menu options have changed. The NETC ECSC can be reached at the following number Monday-Friday from 0600-2100:

- Commercial: (850) 452-1001 option 1, then option 3
- DSN: 922-1001 option 1, then option 3
- Toll Free: 1-877-253-7122 option 2, then option 1, then option 3
